

**Topic**

FI-CO implementation for Loctite Ireland

**Customer**

Loctite Ireland (part of the Henkel Group)

Consumer & Craftsmen Adhesives

Turnover for Henkel group in Europe in 2003 was 6,9 Billion with 34.000 employees

Project location: Dublin (Thallaght) – Ireland

**Task**

Implementation of an FI-CO stand alone for the main production plant of Loctite Europe.

**Implementation**

PIKON had the role of project coordinator but was also main-responsible for the hands on FI-CO implementation. Because the project was not only about putting the required functionality in place according the irish legal requirements but it also had to accommodate an organizational integration between the UK head office and the local admin-activities. As such there was a special attention for the use of workflow in the invoice verification process and the coordination of the period end-closing activities. Because FI-CO was stand alone several Interfaces had to be designed and implemented (Purchasing and sales systems) PIKON was responsible for design and development of these links.
