

Issue

SAP implementation at Paul Wurth Inc, USA, and Paul Wurth Ltd, Canada, both subsidiaries of Paul Wurth, S.A., Luxemburg.

Customer

Paul Wurth S.A is a technology-oriented company in the area of Engineering and Construction mainly active in the steel, iron and non-ferrous industries, but also in the public sector.

Task

In 2002, PIKON launched a roll-out of R/3 in Luxemburg for the North American subsidiaries in the USA and Canada, adapting the existing processes to local particularities (e.g. the accounting principles to US GAAP), translating all system settings and documentations into English and training the users. The project went live after four months operating time, including the modules FI, AA, CO, PS, MM and SD.

Realisation

The following modules were implemented: MM, SD, FI, AA, CO, PS

- Project Management.
- Workshops for Roll-Out.
- Creation of the Blueprint.
- Key-user training.
- Customizing, especially US GAAP:
 - Tax determination in USA and Canada,
 - Cost of sales accounting,
 - Form layout,
 - On-site user training.
- Transfer of master data.
- On-site end-user support after going live.
- On-site support during first month-end closing.
- After-sales support by phone, if required.
