SAP E-Invoicing/ Tax Compliance Consultant Internship

PIKON

Job Location
Onderwijslaan 93, BE-3600, Genk, Belgium

Employment Type
Intern

Are you currently pursuing a master's degree in business and want more insight into the life of an SAP consultant? Do an SAP E-Invoicing/ Tax Compliance Consultant internship at PIKON and surround yourself with an international B2B environment!

At the end of the internship, you propose an optimization of the project approach for the worldwide legal requirements for e-invoicing.

You work out a best practice method for future e-invoicing (electronic invoicing to local tax authorities) projects based on bundling knowledge and documentation of past projects.

The expected results of the internship project are
- A template of a project structure for future e-invoicing projects, as well as training materials
- A built-up knowledge base with FAQs of errors/exceptions/business case
- An overview of the legal requirements of each (relevant) country

In addition to the above, you can also get some training such as BASIS SAP training, Training SAP eDocument cockpit, and Training project management essentials and getting involved in ongoing projects to get a good picture of the project approach in the ERP world.
